

Open Access services to support the publication lifecycle

Jisc's services meet the need to identify, establish, enable and exchange good practice in research management and administration. The diagram below shows how our services support the publication lifecycle, from selecting a journal, to monitoring compliance, to measuring impact and usage.

+ **Guidance, consultancy, technical support, and OA good practice**
We provide **online advice**, **bespoke guidance**, and **technical support**, as well as facilitating the sharing of **good practice**.
